

PORTLAND CEMENT CONCRETE ALLEY SECTION

NOTES:

1. Mix design of P. C. C. shall be WA610-1-4.
2. Transverse contraction joints shall be spaced at intervals equal to the width of alley. If the alley is 15 feet or greater in width, a longitudinal contraction joint shall be constructed at the C of the alley.
3. Expansion joints shall be constructed at each end of the alley and at each abutting driveway.
4. Drainage structures may be required if determined by the City Engineer.
5. Where the alley intersects with a street, a driveway approach shall be constructed in accordance with the appropriate standard drawing.
6. Where needed, handicap ramps shall be constructed.
